

Idaho 2023

Landowner Appreciation Program

Deer, Elk, Pronghorn and Bear

The Future of Idaho's Wildlife and Hunting Heritage is Dependent upon its Landowners

**2023 Application
Period is
May 15 – June 15**

Access Yes! – A Landowner/Sportsman Program

The Idaho Department of Fish and Game administers a private lands access program called *Access Yes!*. The program compensates willing landowners for providing fishing and hunting access for sportsmen. Contact your nearest Fish and Game office for more information.

THE HABITAT IMPROVEMENT PROGRAM

Private lands habitat is a key to many wildlife populations in Idaho. The Habitat Improvement Program, HIP for short, is a technical assistance and cost-share program designed to help landowners create or improve habitat for waterfowl, upland game birds, and many other species.

What Does HIP Do?

HIP assists private landowners by:

- Providing project planning
- Providing special equipment
- Helping with project cost

For more information, contact your local regional Idaho Fish and Game office (listed on the back of this brochure).

Land and Applicant Registration

Landowners must register their land before they apply for Landowner Appreciation Program (LAP) tags. They only have to register their land once, but if their land eligibility changes in future years, they must update their registration.

Land registration must be submitted on a form provided by Idaho Fish and Game. Along with it, the landowner must provide Fish and Game a copy of the deed(s) bearing the name(s) of the owner(s), the most recent tax assessment(s), and a map of the eligible property. Fish and Game will certify the registration and land description and return a copy to the landowner. The LAP registration process is open year around, however Landowners are encouraged to submit their registration packet prior to May 1 of the current year to ensure timely review and approval prior to the controlled hunt application period.

Eligibility Rules

Property: To be eligible for the first drawing property must be at least 640 acres of land in one controlled hunt area whether owned by one or more persons, a partnership, or corporation. It shall not include any government lands. Landowners with between 320 and 639 acres of land in one controlled hunt area are eligible to fill out an application and purchase leftover LAP tags available beginning July 15 (or next business day) at 10:00 am MTN. Leftover tags will be sold on a first-come, first-served basis.

Only property that is used by, and provides significant habitat values for deer, elk, pronghorn or black bear qualifies for the Landowner Appreciation Program. Landowners may only apply for species that use the property.

Landowners will only be eligible to apply for LAP controlled hunts occurring where their registered property is located (see controlled hunt area descriptions for each species).

Applicants: Only one LAP tag per species may be issued for eligible property consisting of between 320 and 4,999 acres. One additional tag may be issued to a landowner or designated agent for eligible property of 5,000 acres or more.

All registered landowners with 640 or more acres of significant deer, elk, pronghorn or black bear habitat will receive a chance at drawing one LAP tag (per eligible species) before any landowner with 5,000 or more acres receives a chance at drawing a second LAP tag (per eligible species). This rule helps to distribute available LAP tags to more registered landowners.

If more than one application is received for eligible property consisting of 320 to 4,999 acres, all applications will be

disqualified. If more than two applications are received for eligible property consisting of 5,000 acres or more, all applications will be disqualified.

A successful landowner, corporate or partnership representative drawing a LAP tag may, without cost, designate to whom the tag will be issued. If the designee already has a general season tag for the species drawn, they will need to exchange the tag for the designated LAP tag at a regional office. This exchange **must** take place prior to the opening season dates for which the general season tag is valid. Exchanges requested after the opening of a general season for which the general tag is valid will not be allowed.

Eligible applicants are limited to landowners listed on the Landowner Appreciation Program Registration form.

“Landowner” is defined as any person or corporation whose name appears on a deed as the owner of eligible property or whose name appears on a contract for sale of eligible property as the purchaser; and any affiliates, management companies, associated entities, wholly-owned subsidiaries, corporations, or limited liability corporations wherein fifty percent (50%) or more of the ownership or controlling interest is maintained by a single individual, partnership or corporation.

“Authorized Corporate Representative” is defined as any shareholder in a corporation, designated in writing by the corporation as the eligible applicant, who is in actual physical control of the eligible property.

Requirement of Non-Landowner Applicants

Corporate / Partnership Representatives: If the person registering is an authorized corporate or partnership representative, he or she must submit with their registration written verification from the board of directors, partnership, or an officer of the corporation, other than themselves, verifying that he or she is authorized to register the property and eligible applicants.

Hunt Areas and Tags

LAP tags are made available for controlled hunt areas designated by Idaho Fish and Game.

Hunt areas may differ by species (e.g., deer, elk, pronghorn, black bear).

Applications which are not drawn for the first choice hunt will automatically be entered into a second choice drawing provided the second choice hunt applied for has not been filled.

All big game rules apply to persons applying for, or hunting with, LAP tags, **except:**

- You are eligible to apply for an LAP tag even if you have applied for a moose, bighorn sheep, or mountain goat hunt.
- Successful LAP tag applicants for antlered deer, antlered elk and pronghorn hunts are **exempt** from the one-year waiting period after being drawn.

Motorized Hunting Restriction

Use of motorized vehicles by hunters as an aid to hunting big game is restricted in certain areas. A full description of the rule can be found in IDAPA 13.01.08.411, 13.01.08.412, or the 2023 Big Game Seasons and Rules brochure. In summary, the rule states motor vehicle use as an aid to hunting for wildlife is restricted to established roadways open to motorized traffic capable of travel by full-sized automobiles. A full-size automobile is any motorized vehicle with a gross weight in excess of 1500 pounds. Established roadways will be considered any roadway-dirt or better-showing signs of repeated use by full-sized vehicles and typically have depressed wheel tracks and minimal to no vegetation in the wheel tracks. Vehicle users can retrieve game, pack camps or ride for pleasure as long as they are in compliance with land manager or private landowner restrictions. The rule does not apply to private lands with permission from the landowner.

See the 2023 Big Game Seasons and Rules brochure, Pages 104-106, for complete rules on Motorized Hunting Restrictions.

Special Restrictions

Landowner Appreciation Program (LAP) participants may hunt only within the boundaries described in the hunt area designated by Fish and Game.

No person shall kill more than one deer, elk or pronghorn in a calendar year **except**:

- An additional deer, elk or pronghorn may be taken by persons holding tags for special depredation hunts.
- When an additional deer or elk is taken in an “extra” deer or elk hunt when the taker has a tag for that hunt. A person is allowed only one (1) extra tag per species in a calendar year.
- An additional deer or elk may be taken by persons who have purchased leftover nonresident deer or elk tags.
- An additional deer, elk, or pronghorn may be taken by persons holding a Super Hunt or Super Hunt Combo tag(s) for the given species.

In no event shall any person take more deer, elk, pronghorn or black bear during a calendar year than the number of tags they legally possess for each species.

Sale of Tags Prohibited

Idaho State Law prohibits the selling or marketing of LAP tags.

Application Fees

Personal checks or money orders are accepted.

The resident application fee is \$6.25 for each application for each species. The nonresident application fee is \$18.00 for each application for each species. Successful applicants can purchase tags at any Regional office, hunting license vendor or by phone. Tag fees will not be accepted with applications.

Application fees are based on residency status of the registered landowners. *If the landowner is a resident, they will need to submit \$6.25 for each application for each species.* If the landowner is a nonresident, they will need to submit the nonresident application fee of \$18.00 for each application for each species. Individuals designated LAP tags must pay the appropriate tag fees based upon their own residency status.

Application Deadline: The application period is May 15 - June 15 for deer, elk, pronghorn and fall black bear controlled hunts. Applications will be entered in the random drawing for tags, which will be weighted to allow one chance for each 640 acres of eligible property to each applicant. ***Applications must be postmarked by June 15 to be accepted.*** See page 35 for controlled hunt application.

Successful applicants will be notified no later than July 15.

Applications for leftover tags will be available beginning July 15 (or next business day) at 10 am MTN, of each year on a first-come, first-served basis. For a list of leftover tags contact your local Regional office after July 1. Landowners will only be eligible to apply for leftover tags where their registered property is located (see controlled hunt area descriptions for each species following controlled hunts). Only signed controlled hunt applications from registered landowners will be accepted and must be accompanied by the appropriate application fees.

The application period for spring black bear controlled hunts is January 15 - February 15.

Mandatory Report Requirements

All deer, elk and pronghorn hunters are required to complete a Mandatory Hunter Report for each tag they purchase. Hunters are required to submit a report by phone or internet for each tag within 10 days after harvest. Hunters who do not harvest are required to report within 10 days after the close of the hunting season for which their tag was valid.

Report your hunt online by signing into your Idaho Fish and Game account at **GoOutdoorsIdaho.com** or **idfg.idaho.gov/hunt/report**.

To submit your hunter report by phone to a live operator, 7 days a week, between 7:00 a.m. and 10:30 p.m. call toll free 1-877-268-9365 (excluding major holidays).

Any hunter killing a black bear must, within 10 days of kill:

- Present the skull and portion of the hide to an Idaho Fish and Game regional office, official check point, or a Fish and Game conservation officer for removal and retention of a premolar tooth and to have the hide tagged with an official state export tag. No person, who does not possess a fur buyer or taxidermist license with appropriate import documentation, shall have, **except** during the open season and for 10 days after the close of the season, any raw black bear pelt that does not have an official state export tag attached (either Idaho’s or another state’s official export documentation).
- A hunter may authorize another person to comply with the above requirements if that person possesses enough information to accurately complete the necessary form. Proxy statement required.
- **Please thaw your black bear hide and skull before bringing it in for tagging or staff members may not be able to complete check-in.**

Report Wildlife Crime

Poaching is Stealing

Idaho is a member of the Wildlife Violator Compact, which means that if an individual's hunting, fishing or trapping license is revoked by any of the 50 member states; all the remaining states will revoke the same license or privilege for the same time period.

Anyone with information about a wildlife violation are encouraged to "Make the Call" and contact the Citizens Against Poaching (CAP) hotline at **1-800-632-5999**. Callers may remain anonymous, and they may be eligible for a reward.

Know Idaho's Trespass Law

All persons must have written permission, or other lawful form of permission, to enter or remain on private land to shoot any weapon or hunt, fish, trap or retrieve game.

A person should know land is private and they are not allowed without permission if:

- The property is associated with a residence, business
- Or, it is cultivated
- Or, it is fenced or enclosed in a way that delineates the private property
- Or, it is unfenced and uncultivated, but is posted with conspicuous "no trespassing" signs or bright orange/fluorescent paint at all property corners and boundaries where the property intersects navigable streams, roads, gates and rights-of-way entering the land and posted in a way that people can see the postings.
- Any person must leave private property when asked to do so by the owner or agent.

Note— It is illegal for anyone to post public land that is not held under an exclusive control lease. Private posting at navigable streams shall not prohibit access to navigable streams below the high-water mark as allowed by Idaho law. **For more details visit: ldfg.idaho.gov/2018-trespass-law**

CHRONIC WASTING DISEASE UPDATE

Hunting in a CWD Management Zone

Chronic wasting disease (CWD) testing is required for deer, elk, and moose harvested in a designated Idaho CWD management zone (**Units 14 and 15** as of February 2023) within 10 days of harvest.

Should I get my deer, elk or moose tested for CWD if I didn't harvest in Units 14 or 15?

- **Yes**, if you harvest in a unit adjacent to Units 14 or 15.
- **Yes**, if you harvest a deer, elk, or moose in any unit that borders Montana, Wyoming, or Utah.
- **Yes**, if you harvest in a unit included in the current rotation strategy for CWD sampling. See idfg.idaho.gov/cwd/sampling for a map of units or contact a regional office.
- **Yes**, if you hunt in any other units and are concerned about whether your deer, elk, or moose may be infected with CWD.

Transporting game from CWD areas

It is unlawful to transport deer, elk, or moose out of a designated CWD management zone (currently Units 14 and 15). However, there are exceptions for meat and some other animal parts. See idfg.idaho.gov/cwd/rules or the **Idaho Big Game 2023 Seasons and Rules** booklet for details.

For up-to-date CWD information and sampling instructions go to idfg.idaho.gov/cwd

Idaho's Mule Deer Initiative

Improving mule deer habitat and mule deer hunting continue to be high priorities for Idaho Fish and Game. Through the department's Mule Deer Initiative, we continue to work with private landowners and land management agencies to:

- *Protect and improve habitat*
- *Improve mule deer numbers*
- *Provide a variety of hunting opportunities*

We're currently working with:

- The Bureau of Land Management and The Mule Deer Foundation to restore critical winter range.
- The Forest Service, including the Caribou-Targhee, Salmon-Challis, Sawtooth National Forests and Bureau of Land Management to restore aspen stands.
- The Idaho Transportation Department to create crossing structures to minimize deer/vehicle collisions.
- The Farm Service Agency and Natural Resources Conservation Service to improve hundreds of thousands of private land acres for wildlife across southeast Idaho.

If you're interested in improving your property for mule deer, contact your regional Fish and Game office.

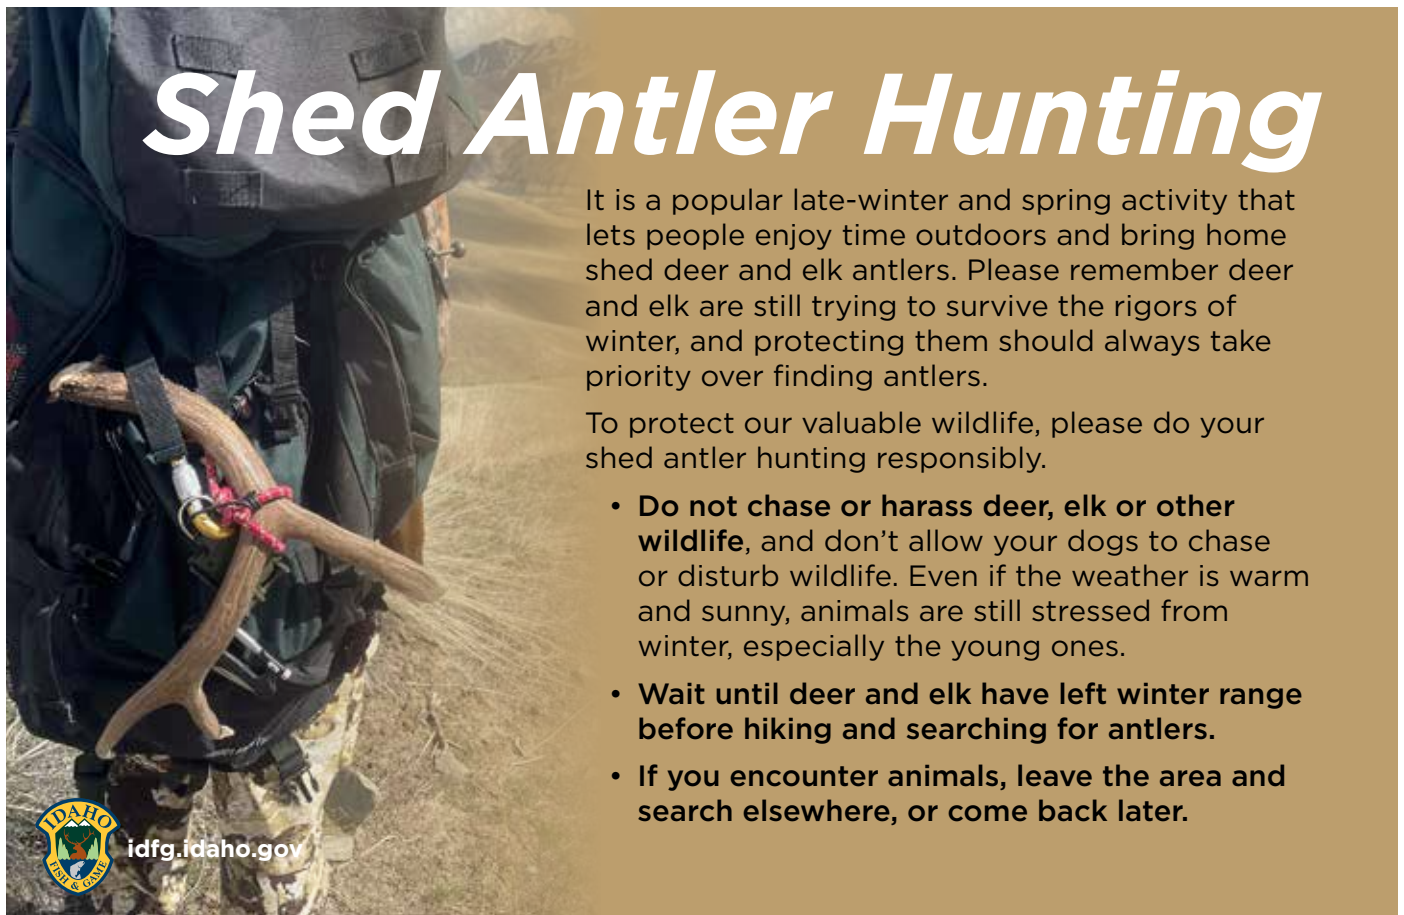

Shed Antler Hunting

It is a popular late-winter and spring activity that lets people enjoy time outdoors and bring home shed deer and elk antlers. Please remember deer and elk are still trying to survive the rigors of winter, and protecting them should always take priority over finding antlers.

To protect our valuable wildlife, please do your shed antler hunting responsibly.

- **Do not chase or harass deer, elk or other wildlife**, and don't allow your dogs to chase or disturb wildlife. Even if the weather is warm and sunny, animals are still stressed from winter, especially the young ones.
- **Wait until deer and elk have left winter range before hiking and searching for antlers.**
- **If you encounter animals, leave the area and search elsewhere, or come back later.**

Landowner Application and Drawing Common Questions and Answers

2023 Application Period is May 15 - June 15

The number of tags that a landowner is eligible for is based on the number of acres they have registered in the hunt area.

- Landowners with 320 - 639 acres are eligible for **leftover tags only**.
 - Available on a first-come, first-served basis, beginning July 15 (or next business day) 10:00 am MTN of the current application year.
- Landowners with 640 - 4,999 acres are eligible for one (1) tag per species and 1 “Extra” hunt tag per species.
- Landowners with 5,000+ acres are eligible for up to two (2) tags per species and 1 “Extra” hunt tag per species.

A person is allowed only one (1) extra tag per species in a calendar year.

How does the LAP Application and Drawing work?

Applications: accepted May 15 through June 15 of the application year. Applications will be entered in a random drawing for tags. ***Applications must be postmarked by June 15 to be accepted.*** See page 35 for application.

- To apply registered landowners must submit an application, the appropriate application fees (\$6.25 for resident landowners and \$18.00 for nonresident landowners), and specify their 1st choice and optional 2nd choice for each species.
- Landowners who are eligible for two (2) tags can submit their application for the first and second tag on the same application. Hunt numbers for each tag must be filled out correctly and appropriate fees for applications must be included for each species.
- Successful applicants will be notified by mail no later than July 15.
- Leftover tags will be available on a first-come, first-served basis, beginning July 15 (or next business day) at 10 am MTN time.

Drawing: The LAP drawing process gives all applicants a chance at one tag (first tag application) before any landowner can draw a second tag (second tag application) for each registration by species. The controlled hunt drawing system processes and awards tags through the following steps:

1. The 1st choice hunts from first tag applications are processed through the random, weighted, controlled hunt drawing and tags are awarded.
2. The 2nd choice hunts from first tag applications are then processed through the same random, weighted, controlled hunt drawing for hunts with remaining tags and tags are awarded.
 - No person can draw their 2nd choice hunt if all tags have already been awarded to 1st choice applicants.
3. The 1st choice hunts from second tag applications (for landowners who are eligible for two (2) tags), are then processed through the random, weighted, controlled hunt drawing and tags are awarded.
 - No person can draw a second tag if all tags have been awarded to first tag applicants (including 1st choice and 2nd choice hunts).
4. The 2nd choice hunts from second tag applications are then processed through the same random, weighted, controlled hunt drawing for hunts with remaining tags.

How do I apply for an “Extra” deer and/or elk tag?

Landowners are eligible to draw ONE (1) “Extra” LAP tag, per species, in addition to the tags that they are eligible to have.

- To be eligible, landowners **MUST** have property registered for the species they are applying in the areas where “Extra” tags are offered.
- Landowners **MUST** submit a separate application and fee. An Extra controlled hunt **cannot** be combined

Landowner Application and Drawing Common Questions and Answers

with a regular controlled hunt on the same application. For example: A Landowner *cannot* apply for a regular controlled hunt for their 1st choice *and* an Extra controlled hunt for their 2nd choice.

Are my chances of drawing a tag higher if I have more property registered?

Yes. The drawing is weighted based on registered acreage. Landowners receive one weighted entry for each 640 acres they have registered by unit for that species. For example:

- A landowner with 640 acres will receive one (1) entry for the hunt they are applying.
- A landowner with 1,280 acres (2 x 640 acres) will receive two (2) entries for the hunt they are applying.
- A landowner with 1,920 acres (3 x 640 acres) will receive three (3) entries for the hunt they are applying.

I didn't draw a tag for either my 1st choice OR my 2nd choice. Why didn't I draw?

The most common reason a landowner doesn't draw is because the hunt they are applying for is oversubscribed (areas with more landowners than tags available).

For additional questions on the LAP application and drawing please contact the Landowner Sportsman Coordinator in your Regional Office.
